One of the Five Most Valuable SUV Brands in the World with Over More than 5 Million Sales Volume

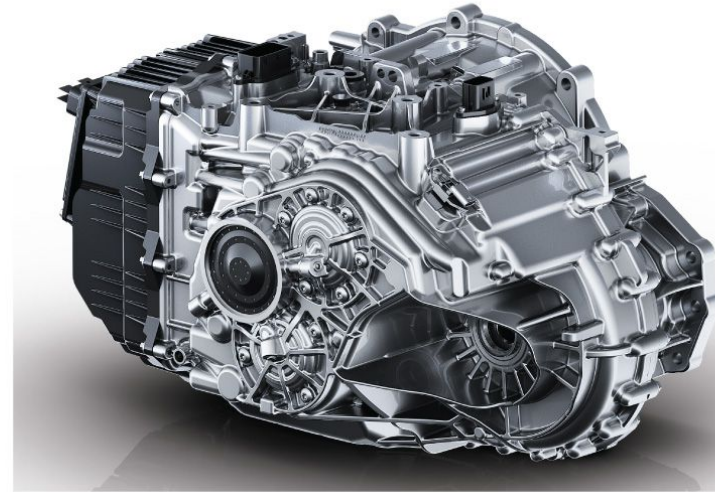

Iconic LED Front Headlights and Taillights

Power and Precision Defined

1.5L VVTI Turbocharged engine delivers 148 hp and 220 nm torque. Its enhanced torque coupled with 7-speed DCT, brings stronger power output, letting the vehicle accelerate very fast

7 Speed Transmission

7DCT transmission adopts a low energy system, with high transmission consumption efficiency, stable performance and better NVH performance

HAVAL Architecture L.E.M.O.N. Platform

Advanced smart lean production concept using most automated and world's top Swedish ABB robotics

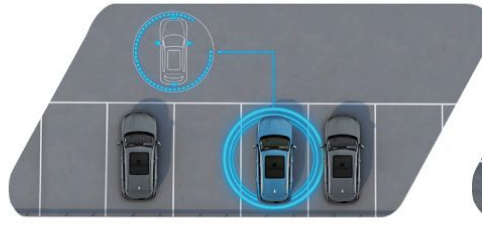

H2 HEV will feature World's First 9DCT with new powertrain which is independently developed by Haval, under guidance of Gerhard Henning, former senior engineer with Mercedes-Benz and Volkswagen

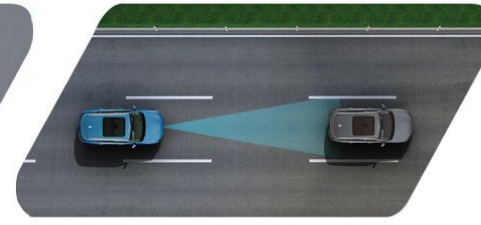

Safety and Driver-assistance Features

360° View Camera

Parking Aid System

Adaptive Cruise Control

Intelligent and Safe Driving

The integration of 360° view, full-speed adaptive cruise, collision warning and other functions

Lighter and Stronger Chassis

Reduced body weight by 44 kg enhanced performance by 10% and saved fuel consumption by over 14.5%

Dimensions

6 All-directional Airbags

Optimized Protection with 77% High Strength Steel

HAVAL Jolion is developed under Haval's latest high-intelligence \$4 billion L.E.M.O.N.* global modular platform that boasts high performance, high safety, and lightweight technology. With super high rigidity body frame of up to 2,000 Mpa high strength steel and 3DP safety concept (Passenger, Pedestrian, and Parts), effectively takes all the crash impacts & keep the occupants safe
